Profile

I am a full stack developer with lots of customer facing experience from customer service in call centers to customer relations in recruiting. I have had different opportunities to learn a variety of skills that I believe will allow me to communicate well on a team as well as to clients while having that technical understanding of how to build a full stack application.

Relevant Skills

- Soft Skills: Time management, big-picture thinking, desire to constantly learn, critical thinking, communication, problem solving, adaptability, creativity, persuasion and an openness to constructive criticism.
- Technical Skills: Javascript, ReactJS, Python 3, UML, HTML5, CSS, Flask, JSON, Git, MongoDB, SQL Databases, SCSS/SASS, Flexbox, CSS Grid, etc.

Projects

- **Fantastic Fries:** A multi-page, responsive restaurant website that utilizes HTML5, CSS3, Flexbox, CSS Grid, Animations, media queries, custom forms, responsive images, and a range of front end development techniques.
Will provide URL on request.
- **React Calendar:** A full stack calendar application that utilizes React, SCSS. with a python API that utilizes flask, flask SQLAlchemy, Flask Marshmallow and Flask CORS. google sheets
Will provide URL on request.
- **MadLibs:** A full stack Mad Libs application. This application utilizes React, SC SCSS. with a python API that utilizes flask, flask SQLAlchemy, Flask Marshmallow and Flask CORS. This is my version of the classic MadLibs game.
Will provide URL on request.
- **Movie Review :** A full stack application that utilizes Javascript, HTML, SCSS python API that utilizes flask, flask SQLAlchemy, Flask Marshmallow and Flask CORS. This project has full CRUD functionality.
Will provide URL on request.
